

TG400 Trowel Glue

- Easy-to-squeeze bottle
- 400–500 linear feet coverage per bottle
- Extremely strong bond
- Same as forteko trowel glue t200
- Extreme holding power
- Great for engineered & Solid wood

Product Description

Forteko TG400 is a premium tongue-and-groove glue designed for flooring installations, including close-out rows. It dries quickly, applies easily, and creates a durable, long-lasting bond. In addition to flooring, TG400 can also be used as a versatile wood adhesive for a wide range of wood species and wood-based materials.

Application

1. Cut the nozzle to achieve the desired flow rate.
2. Apply glue into the groove, on the floor surface, or wherever adhesion is required.
3. Press the wood pieces firmly together, ensuring proper bonding.
4. Wipe away any excess glue immediately with a damp cloth.

Specifications

Packaging	16.5 oz plastic bottle
Shelf Life	12 months
Color	White
Coverage	400–500 linear feet per bottle

Working Climate	Surface temperature above 59 °F
Drying Time	5–15 minutes
Final Strength	Achieved after 24 hours
VOC Content	< 30 g/L
